

Integrated Urban Development and
Co-Production for Indian Cities

++ Save the Date: UrbanLab #4 Pune, 27th – 29th of June 2018 ++

Respected Sir/ Madam,

On behalf of the *Indo-German Smart Initiative (IGSI)*, it is my pleasure to invite you to participate in the “UrbanLab Pune: Smart Spaces for People” in Pune, in June 2018.

HOW TO BRING PROPOSAL INTO PRACTICE?

IGSI – a network of leading German research and planning institutions – strives for knowledge transfer between Germany and India in the field of smart cities. By working on actual planning tasks, participants of *UrbanLabs* will investigate programmatic gaps in recent smart city proposals and will moreover experience methods of integrated and collaborative planning processes, which set individuals and users of urban spaces in the centre of them.

Overall topic of the fourth UrbanLab in India will be the ‘*Development of Smart Spaces*’ within the existing smart city proposal taken as a prototype in the Aundh-Baner-Balewadi(ABB) smart area for development in an urban context. Five representatives from leading planning companies (urban planning and urban design, architecture, mobility, governance) will work together with you on ideas and strategies, to bring smart ideas for future Indian cities into practice.

The *Indo-German Smart Initiative* is supported by our network partners Dr. Bhanuben Nanavati College of Architecture, Pune and National Institute of Urban Affairs, Delhi.

Program outline:

- | | |
|--------------------------|---|
| 27 th of June | Conference “Indio-German perspectives towards Smart Cities”
Dialogue of Indian and German scientists, representatives of governmental institutions and planning experts. |
| | Workshop Part I: Understanding Challenges |
| 28 th of June | Workshop Part II: User groups and needs |
| 29 th of June | Workshop Part III: Specific solutions and prototypes |

Please express your interest of attendance of either the conference and/or the workshop by sending an e-mail at: mail@igsi.info. We will soon send the confirmed participants an invitation mail with more details about the venue, programme and exact time frames.

We are looking forward to exchange, experiences, perspectives and to jointly develop ideas for future cities.

Kind regards,

Prof. Elke Pahl-Weber.
